PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology graduate with foundational expertise in programming, machine learning, and full-stack development. Skilled in designing real-time web interfaces and deploying machine learning models. Adept at solving real-world problems and collaborating with innovative teams. Actively seeking an entry-level opportunity in the technology sector to apply technical skills, contribute to impactful projects, and grow professionally.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, HTML

Frameworks & Tools: Flask, Git, VS Code, Render

Databases: MySQL

Operating Systems: Linux, Windows

Other Skills: Problem-solving, Team collaboration, API integration

PROJECTS

Behavioral CAPTCHA System — *Final Year Project*

DY Patil University | Aug 2024 – Apr 2025

- Developed a behavioral CAPTCHA system to differentiate between human and bot activity using canvas based drawing analysis.
- Built the frontend using HTML5 Canvas and JavaScript for real-time drawing input.
- Trained and deployed a machine learning model using Python and Flask hosted on Render.
- Integrated touchpad interaction for enhanced UX and more accurate prediction.
- Role: Frontend integration, ML model testing, API communication
- Team Size: 5

Emotion Detection App — *Individual Project*

Jul 2024

- Built an image-based facial emotion detection system using Python.
- Implemented emotion classification to detect Angry, Sad, Happy, Fear, etc., based on facial expressions.
- Worked on data preprocessing and model inference.

EDUCATION

DY Patil University, School of Engineering & Technology, Ambi, Pune

- *Bachelor of Technology in Information Technology*

Nov 2022 - Jun 2025

Completed B.Tech degree in Information Technology with CGPA-8.06.

Pimpri Chinchwad Polytechnic College, Sector-26, Nigdi, Pune

- *Diploma in Information Technology*

Jul 2019 - Jun 2022

Completed diploma in Information Technology with Percentage-69%.

CERTIFICATIONS

Machine Learning Certification Program

DYPU-KRITI in collaboration with Spartificial Innovations Pvt. Ltd. | Sep 2023

- Completed a one-week joint industry-academic certification in ML at DY Patil University.

AI/ML for Geodata Analysis Program

Indian Institute of Remote Sensing (IIRS) | Aug 2024

- 7.5-hour program focused on AI/ML applications for geospatial data analysis.
- Gained skills in processing and interpreting large-scale geospatial datasets.

ACADEMIC EXPERIENCE

Academic Projects and Coursework

- Core Java, Artificial Intelligence coursework completed.
- Worked in academic groups and team environments to solve problems using machine learning and software development tools.
