Professional Summary:-

Recent B.Tech IT graduate with practical experience in building full-stack and AI-powered applications. Developed an AI Recruitment Portal using Spring Boot, React, PostgreSQL, JWT Authentication, and AI-based resume matching. Built a Behavioral CAPTCHA system using Machine Learning and created Urban+, a Smart City Dashboard with React. Enthusiastic about transforming ideas into effective solutions and collaborating with teams to deliver impactful real-world projects.

Skills:-

Programming Languages: Python, JavaScript, SQL, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend & APIs: Spring Boot, Flask, Node.js, REST APIs

Databases: MySQL, PostgreSQL

Cloud & Deployment: AWS (Basics), Render

Tools & Platforms: Git, GitHub, VS Code, Postman.

Technical Highlights:-

- Hands-on experience building frontend and backend web applications.
- Familiar with REST APIs, cloud deployment and Git/GitHub workflows.
- Strong interest in full-stack development, debugging and scalable applications.
- Experience integrating third-party APIs and real-time data services.

Projects:-

- AI Recruitment & Job Portal Platform – Full Stack Project | Apr 2026 - Jun 2026
 - Developed a full-stack AI recruitment platform using Spring Boot, React.js, PostgreSQL, and JWT Authentication.
 - Implemented role-based access control, job posting, application tracking, and resume management features.
 - Integrated AI-powered resume-job matching, PDF resume parsing, and ATS-style candidate evaluation.
 - Deployed backend on Render, frontend on Vercel, and PostgreSQL database on Neon Cloud with automated email notifications.
- URBAN+ Smart City Dashboard – Team Project | Aug 2025 – Oct 2025
 - Developed a Smart City Dashboard using React.js and Node.js integrating Weather, AQI, News and Maps APIs.
 - Built responsive UI components using Tailwind CSS and implemented dynamic real-time API rendering.
 - Integrated third-party APIs and location-based services for live data visualization.
 - Collaborated using Git and GitHub for version control and project management.
- Behavioral CAPTCHA System – Final Year Project | Aug 2024 - Apr 2025
 - Developed a behavioral CAPTCHA web application using Python and Flask backend APIs.
 - Built interactive frontend features using HTML5 Canvas and JavaScript.
 - Trained and deployed an ML prediction model on Render for real-time human/bot detection.
 - Worked on API integration, data preprocessing and backend deployment.

Certifications:-

- Web Development Internship – TechnoHacks EduTech | Jul 2023 - Aug 2023
- Machine Learning Certifications Program – DYPU-KRITI in collaboration with Spartificial Innovations Pvt. Ltd. | Sep 2023
- Core Java Programming – Diamond Mindglance Institute, Pune | Jan 2024 - Apr 2024
- Tata Data Visualization: Empowering Business with Effective Insights Job Simulation on Farage | Sep 2025

Education:-

B.Tech in Information Technology, CGPA: 8.06

Aug 2022 - Jun 2025 | DY Patil University, Ambi, Pune

Diploma in Information Technology, 69.38%

Jun 2019 - May 2022 | Pimpri-Chinchwad Polytechnic, Nigdi, Pune
